### **NEWS UPDATES:**

**COASTAL ZONE ACT STATUS DECISION FOR MWL PRODUCTS, INC.** – On April 29, 2011, MWL Products, Inc. filed a Request for a Coastal Zone Act Status Decision to determine if a Coastal Zone Act Permit is required to manufacture boiler fuels on the 5-acre property adjacent to the existing pier at the DuPont Chamber Works Facility. DNREC Secretary Collin O'Mara's Status Decision is that a Coastal Zone Act Permit is required under 7 Del. C. § 7004. MWL plans to construct a facility to manufacture various boiler fuels from centrifuge oil within the grounds of the DuPont Chambers Works. The feed stock would be delivered by water to the proposed pier and dock four times a year in 500,000 gallon shipments. There is a fourteen day appeal period following the date of publication of this legal notice. Anyone wishing to appeal this decision to the State Coastal Zone Industrial Control Board must do so by July 13, 2011. For more information, please call Kevin Coyle at (302) 739-9071, or visit:

### **UPCOMING AIR, WASTE & WATER-RELATED HEARINGS, MEETINGS & EVENTS:**

**PUBLIC WORKSHOP** – The Division of Air Quality (DAQ) will conduct a Public Workshop on July 6, 2011 beginning at 6:00 pm at the Delaware Energy Office Conference Room, 1203 College Park Drive, Suite 10, Dover - 19904 to amend 7 DE Admin Code 1144, "Control of Stationary Generator Emissions," (which is also known as Regulation No. 1144) to update the language of the regulation and to make minor corrections to the emissions requirements based upon recent promulgations for similar engines made by the US Environmental Protection Agency (EPA). Additionally, the regulation will be amended to lower the diesel sulfur content requirement from 500ppm to 15ppm, to be consistent with EPA requirements. Other planned amendments include clarifying the sulfur content provisions for natural gas and propane, and clarifying various definitions and regulatory requirements. The purpose of this public workshop is to educate the public and affected industry on the draft amendments to the stationary generator regulation, and to hear comments and recommendations to aid in the development of the formal proposed amendments to the regulation. For additional information, please contact Mark Prettyman at (302) 739-9402 or visit:

For additional information, please contact Christina Wirtz at (302) 395-2600 or visit: <http://calendar.delaware.gov/eGov/Calendar.nsf/Meetings/AF656AD094A44852852578AB0071A7FE?open>

#### **DOCUMENTS AVAILABLE FOR PUBLIC COMMENT OR APPEAL:**

**BROWNFIELDS DEVELOPMENT PROGRAM** – The Division's Brownfields Development Program encourages the cleanup and redevelopment of vacant, abandoned or underutilized properties which may be contaminated. A party seeking to develop such a property negotiates with the Division's Site Investigation and Restoration Section (SIRS) for a Brownfields Development Agreement (BDA) or a Brownfields Voluntary Cleanup Program (VCP) Agreement to perform an investigation and, if necessary, a remedial action or remedy, for the purpose of addressing the risks posed by past releases of hazardous substances at these sites. For site-specific information on the following sites, please see SIRS's superfund site files database at: <http://docs.dnrec.delaware.gov/sirbsitefiles.cfm>.

#### **PROPOSED PLAN OF REMEDIAL ACTION FOR THE GROWMARK FS MILFORD SITE (DE-1326)**

– The Site Investigation and Restoration Section invites public comment on a proposal to clean up the Growmark FS Milford Site located at 308 and 508 Northeast Street in Milford. The approximately 9-acre property has offices and a warehouse. Groundwater at the Site is impacted by methyl tertiary butyl ether (MTBE), ethylbenzene, xylenes, naphthalene and 2-methylnaphthalene, and nitrate nitrogen. However, numerous groundwater sampling events have demonstrated that contamination is not leaving the site. The proposed remedy will be to restrict groundwater use at the Site. The restriction will be removed after the groundwater at the site is determined not to be a health risk. The comment period ends on July 18, 2011. For additional information, please contact Rick Galloway or Robert Newsome at (302) 395-2600 or visit:

#### **PROPOSED PLAN OF REMEDIAL ACTION FOR THE 900 SOUTH FRANKLIN STREET (DE-1458)**

– The Site Investigation and Restoration Section invites

public comment on a proposal to clean up the 900 South Franklin Street site in Wilmington. The 0.58 acre site is a vacant lot that may have had a former residence that was historically demolished. Several locations at the site have been filled with debris. The site does not pose an unacceptable risk for the proposed commercial redevelopment. An Environmental Covenant will be placed on the site to limit it to commercial use. No other remedial actions will be required for the site. The comment period ends on July 18, 2011. For additional information, please contact Todd Keyser or Robert Newsome at (302) 395-2600 or visit:

**NOTIFICATION OF NEGOTIATIONS FOR A BROWNFIELDS DEVELOPMENT AGREEMENT FOR THE FRANKLIN FIBER PARKING SITE (DE-1511)**

– The Site Investigation and Restoration Section (SIRS) negotiated a Brownfields Development Agreement (BDA) with Franklin Fibre-Lamitex Corporation regarding the Franklin Fiber Parking site located at 909 E. 14<sup>th</sup> Street in Wilmington. Known by New Castle County as tax parcel number 26-036.20-205, the 0.05 acre site may have had a release of hazardous substances as a result of past use as a railroad bed and its close proximity to the Wiley Cork Site (DE-0324) and the Diamond State Salvage Site (DE-0281). A Phase I Investigation on adjacent parcels indicated potential impacts from historic filling. For more information, please contact Robert Asreen at (302) 395-2600 or visit:

**TITLE V PERMIT RENEWAL APPLICATIONS –** Notice is hereby given that the following has filed an application:

DuPont Experimental Station having a facility at Route 141 and Henry Clay, Wilmington, has submitted a request for permit renewal pursuant to 7 DE Admin. Code 1130, Section 7 Permit: AQM-003/00011-Renewal-1.

Based on the data and certifications contained in the application, the Division of Air Quality (DAQ) concludes that the applicant meets all applicable requirements promulgated by the Environmental Protection Agency (EPA) and DNREC. Therefore a "draft/proposed" permit renewal-2 has been prepared. This "draft/proposed" permit renewal-2, incorporates all the changes of the applicable requirements. The "draft/proposed" permit renewal is being submitted to EPA for concurrent processing. If there are no significant comments, the "draft/proposed" permit renewal will be issued as a final permit after expiration of the EPA review period. A public hearing concerning the permitting action will not be held unless the Secretary of DNREC receives a request for such hearing by August 3, 2011. For additional information, please visit: <http://www.dnrec.delaware.gov/Lists/Public%20Notices/DispForm.aspx?ID=1147&Source=http%3A%2F%2Fwww%2Ednrec%2Edelaware%2Egov%2FLists%2FPublic%2520Notices%2FAIItems%2Easpx&ContentTypeId=0x010034FD6D348B0CF04392485E93FC15AB3A>

**TITLE V SYNTHETIC MINOR PERMIT APPLICATIONS** – Notice is hereby given that the following have filed applications:

Notice is hereby given that Prince Minerals, Inc. has submitted an application, pursuant to 7 DE Admin. Code 1102, Section 2.1, 11.2.9, and 12.3 to reduce particulate matter potential emissions in Auxiliary Raymond Unit (EU07) and Sand Chrome Dryer Unit at 301 Pigeon Point Road, New Castle. Prince Minerals, Inc. requests a limit for reduction in particulate matter (PM10) emission levels. The limits are necessary to restrict Prince Minerals, Inc. potential to emit air pollutants, and the limit will be enforceable by the EPA and the state. Total emissions from the facility are to be limited as follows: Plant-wide particulate matter (PM10) exhaust emission levels of non-hazardous air pollutants (non-HAPs) and hazardous air pollutants (HAPs) shall not exceed 16.1 tons per year (TPY) and 1.8 TPY, respectively. Plant-wide fugitive PM10 emission levels of non-HAPs and HAPs shall not exceed 11.4 TPY and 7.0 TPY, respectively. A public hearing concerning the permitting action will not be held unless the Secretary of DNREC receives a request for a hearing by July 26, 2011.
